Subject: Microsoft Settlement

To whom it may concern,

These comments are being submitted in regard to the Microsoft Anti-Trust case as a public comment allowed under the Tunney Act.

I will be brief.

The settlement as proposed offers no remedy alleviate Microsoft's aggressive and monopolistic practices. What the settlement amounts to is not so much a slap on the wrist, but a giant giveaway, allowing Microsoft to not only continue their anti-competitive and anti-free market practices, but actually gives them leverage in markets that currently don't already own lock, stock and barrel (i.e. the education market).
